

The 100% Libò table upper border view seems to be ok.

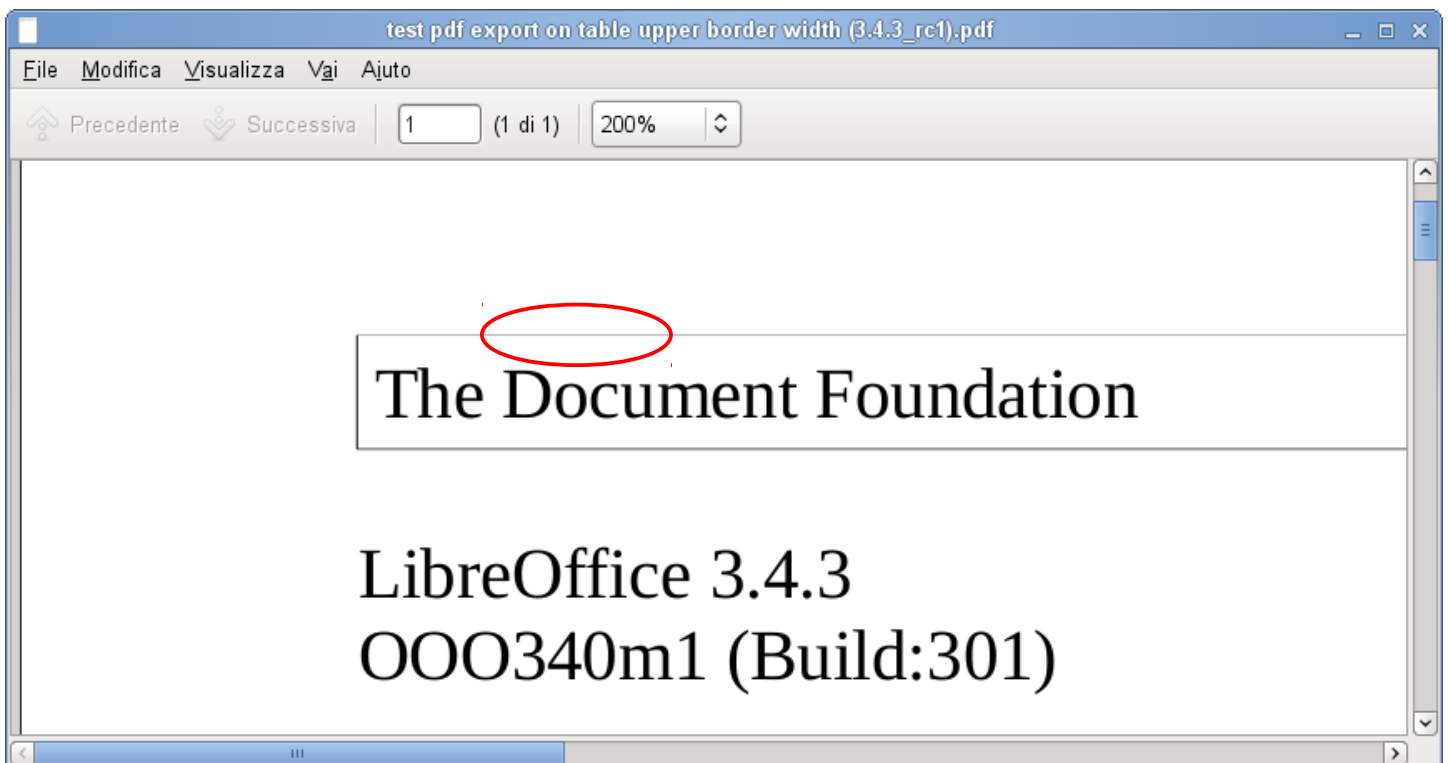

The 100% pdf (Evince) table upper border view is already ko:
*top border change in color or are pdf rendered the table limits
or the table structure...*

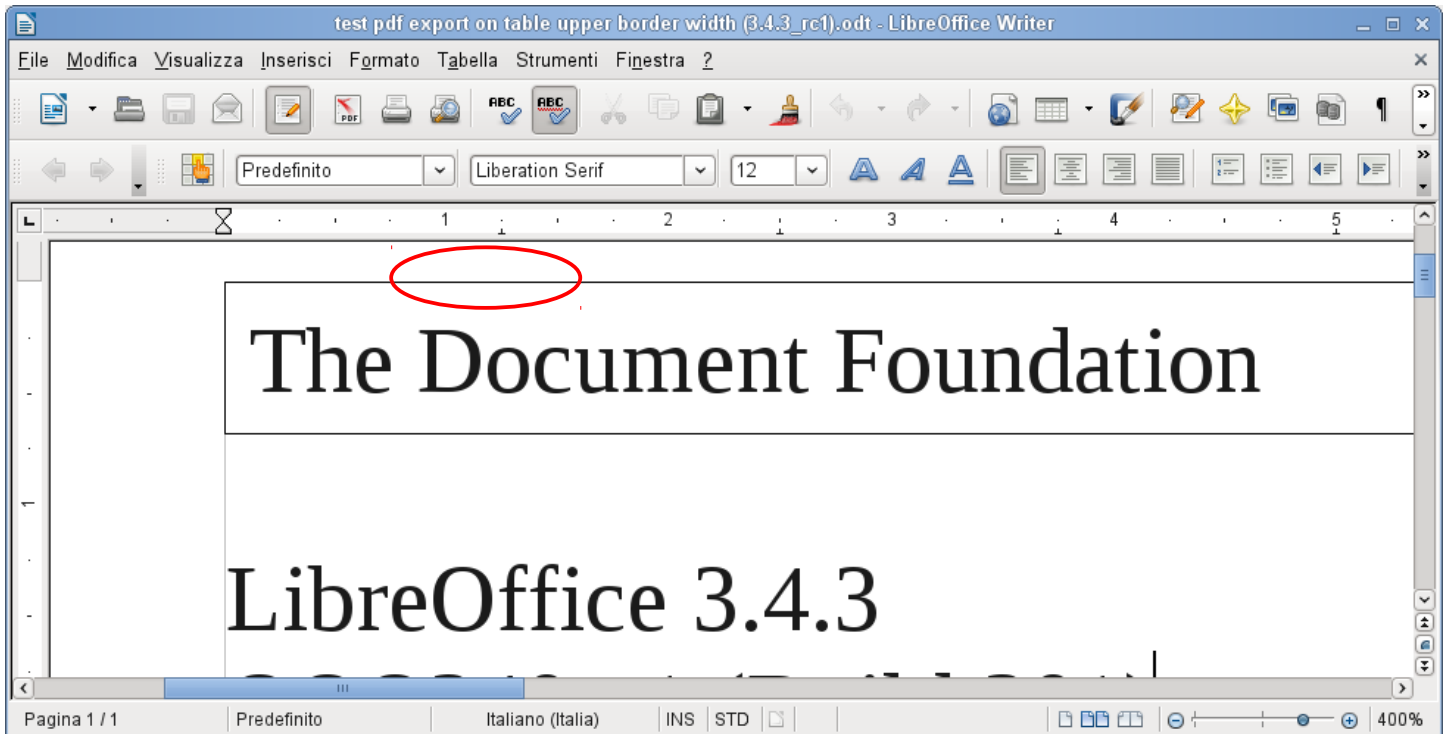

The 200% Libò table upper border view seems to be ok.

The 200% pdf (Evince) table upper border view is already ko:
*top border change in color or are (also and sometimes?) pdf
rendered the table limits or the table structure...*

The 400% Libò table upper border view seems to be ok.

The 400% pdf (Evince) table upper border view is already ko:
*top border change in color (disappear), bottom one seems pdf
rendered with the table limits or the table structure...*
